Believe It or Not Mr. Ripley!

In Ireland, there are men of Cork; in Scotland, there are men of Ayre; and in England, there are Lighter men. In those grand old United States they have their N.R.A. and in Canada we now have our N.R.W. While he had nothing to do with it (except the wish to see it in operation) the "N.R.W." was "coined" by Mr. Carl Swenson. Carl is somewhat of a midnight philosopher on his trips between the local depot and post office with His Majesty's Mails. He believes the N.R.W. will prove to be the greatest factor in re-establishing the farmers of the west. Gentlemen! the National Recovery Weather.

District Receives 1.41 inch Precipitation in 25-hours Rain

Drought in outlying parts of district broken and feed outlook is much improved. Garden truck has been revived and should now make rapid growth. Frost occurred June 3, nipping some of the potato crop.

Starting around 7 o'clock in the morning Monday, rain commenced to fall gently and continued throughout the day, gradually increasing in force as the hours passed until midnight, when the rain gauge showed that 1.12 inch had been received. By eight o'clock the following morning another .29 inch had been added for a total precipitation of 1.41 inch. The elation caused by this rain is somewhat tempered by the grasshopper menace, but it is generally believed that if the weather remains cool and damp for a few days, the ravages of this pest will be curtailed considerably. The rain is undoubtedly one of the best the district has received in years and to date has been followed by raw chilly weather which is considered ideal. Reports show that precipitation was not only general throughout this district but covered a large portion of Alberta and the other western provinces.

Light frosts occurred in the district June 3, and potato crops are reported touched and garden beans, in some cases destroyed.

Oswald Peck Wins Honors at Macdonald College

Oyen is proud to extend congratulations to Oswald Peck, son of Mr. and Mrs. G. S. Peck of Oyen, on the successful results of his studies at Macdonald College, where he recently was awarded his M.Sc. degree and won honors in Entomology.

Mr. Peck will visit his parents in Oyen this summer and will go to England this fall.

Obey that impulse!

KEEPING UP QUALITY

The reputation of Canadian wheat on the markets of the world is due to the efforts western farmers have made to keep up the quality of their production.

And the reputation of United Grain Growers is similarly based on unremitting efforts to keep up the quality of its service to farmers in handling their grain and furnishing them with farm supplies.
